T WIRELESS

Draft website: is this right?

965 Bovaird Dr W, Brampton, ON

Prepared by

EMBLEM-NLP

We made a draft website for T Wireless

We're EMBLEM-NLP, an agency that builds websites. Nobody asked us to, but we made draft designs for a T Wireless website using only public information: Bell's store finder, Google and business listings.

Some of what we found may be wrong, and you know the store best. These questions let you correct it. Every question is optional, and you can stop at the end of any part.

If you'd rather not take part, there's nothing you need to do. If you want the drafts taken down, tell us and we will.

Prepared by EMBLEM-NLP.
